ABOUT KWPN

> KWPN

KWPN (Royal Warmblood Horse Studbook of the Netherlands) is one of the most successful sport horse studbooks in the world. Several Olympic champions find their basis in Dutch breeding. Within KWPN breeding we distinguish four breeding directions: dressage horse, jumping horse, harness horse and Gelder horse. Performance-oriented, durability and appealing conformation are the most important factors on which the international success of the Dutch horse is based. The Dutch horses win international competitions week after week and regularly top both the FEI rankings and the WBFSH studbook rankings. In 2023, Dutch dressage horse breeders were the best in the world for the seventh year in a row.

> KWPN Magazine

The equestrian magazine KWPN Magazine is the members' magazine of the KWPN. The KWPN Magazine informs the reader extensively about sport horse breeding and related topics such as stallion and mare selection, successful mare lines, KWPN events and the successes of the KWPN horse in (international) sport. Successful KWPN horses, breeders and riders are central to this. The KWPN Magazine is published 10 times a year and is read by tens of thousands of horse enthusiasts.
