

**EVERGLOW GOLD      DE433330600022**  
**21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 30, cat.nr. HK'25: 328

**01-04-2022, 1.71 M, CHESTNUT**

**S. ESCOLAR V. ESTOBAR NRW**

**D. WEIHE'S HOPE DP**

**S. SIR DONNERHALL I M. WEIHEGOLD RP**

**DS. DON SCHUFRO ERK -- SANDRO HIT**

BREEDER: C. ARNS-KROGMANN, LOHNE

**GER.: S. GERRITS - POEL, MEIJELSEWEG 73, 5725 RG HEUSDEN**

**K.F. GERRITS, MEIJELSEWEG 73, 5725 RG HEUSDEN**

**Exterior:**

Everglow Gold is a strongly modelled, uphill-built stallion with much stallion expression. He has strong connections and stands well in the rectangular model. The neck is good in length, strongly muscled, and arched upward. The withers and shoulder are strongly developed. The back and loins are well muscled and well connected. The croup is well placed and long. The foreleg is correctly aligned. The hindleg is slightly straight. The hooves are well developed and of good quality. The heels are appropriately developed.

**Pedigree:**

Premium stallion Everglow Gold is, on the dam's side, a grandson of the well-known Grand Prix mare Weihegold OLD, with whom Isabell Werth was highly successful. They surpassed 90% multiple times, won team gold and individual silver at the Rio de Janeiro Olympic Games, double gold at the European Championships in Gothenburg, and achieved more than 50 international victories in total. Weihegold has also proven to be exceptional in breeding, producing offspring such as Total Hope OLD (s.Totilas), who was successful at the Paris Olympics and the European Championships in Riesenbeck and Crozet under Isabel Freese, and Special Gold PCH (s.San Amour I), classified Intermediaire II under Katharina Hemmer. Weihegold herself is a half-sister to the Grand Prix horses Total Recall (s.Totilas) ridden by Jemma Heran and Tripple X (s.Totilas) ridden by Hope Cooper. More Grand Prix genes have been added to this pedigree via sire Escolar, who competed successfully at the highest level with Hubertus Schmidt. He is making a name for himself as a sire with more than ten Grand Prix offspring and is influential through sons such as Escamillo, who was a medal winner at the World Championships for Young Dressage Horses.

**Performance report:**

Everglow Gold is an impressive stallion with power and strength. He is somewhat dominant but allowed himself to be increasingly well managed throughout the test. The walk is good in four-beat rhythm, powerful, marching, and shows scope. The foreleg could reach further forward. The trot has much power, the hindleg shows strength and force, and this is well transmitted through the topline. The foreleg shows much knee action. The canter has much power and jump, the overall picture is uphill with a carrying hindleg and an expressive foreleg. Everglow Gold gained suppleness and relaxation during the performance test; he has much ability to collect and extend, shows uphill tendency and self-carriage. The contact is consistent and stable; occasionally the stallion grinds his teeth slightly.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary report:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Everglow Gold can add strength, power, dressage genes, and improve the model in dressage horse breeding.

**Dam report:**

Weihe's Hope is a sufficiently developed mare who stands well in the rectangular model.

The poll is good in length with a light poll-neck connection.

The neck is good in length, good in shape and musculature.

The withers are somewhat low and extend sufficiently into the back.

The shoulder is sufficiently long and slightly steep in placement.

The back is well muscled and the loins are strongly connected.

The croup is slightly straight in its placement and sufficiently long.

The foreleg is correct from the side and correct from the front.

The hindleg is correctly aligned.

The front pasterns are slightly soft; the hind pasterns are well aligned.

The hooves are sufficiently developed with slightly low heels.

The foundation is appropriately developed and hard in quality.

The walk is active and sufficiently roomy.

The trot is light-footed and elegant; the hindleg is placed well under the body, and the mare departs with a good posture. The trot shows sufficient use of the body.

The canter has impulsion and sufficient suppleness; again the good hindleg use and good balance stand out.

Height: 1.60 m / Colour: chestnut

**DS. BIOTOP ERK -- WELLINGTON KEUR**

**FOK./GER.: A. VAN BALLEGOOIJEN, NIEUWSTRAAT 3, 5311 BE GAMEREN**

**GER.: TRAININGSTAL WITTE SCHOLTENS VOF, VLIETSKADE 60, 4205 NG GORINCHEM**

**Exterior:**

Sensation Gold is a well-developed stallion who stands very well in the rectangular model. The neck is good in length, well muscled, and arched upward. The shoulder is good in length and placement. The withers are well developed and extend noticeably far into the back, which is well muscled. The loins are well muscled and well connected. The croup is correctly placed but could be slightly longer. The foreleg shows a slightly hollow stance from the side and is correct from the front. The hindleg is slightly straight. The hooves are broad and of good quality; the heels are slightly uneven. The foundation could express a bit more quality.

**Pedigree:**

Premium stallion Sensation Gold is bred out of the national Grand Prix mare Imagine, ridden by Jeroen van Eck. As a three-year-old, this NMK mare already demonstrated her dressage talent by passing the mare test with 85.5 points, including 9s for canter and posture & balance. Imagine already produced two elite mares, including the well-tested My Lady (s.Glock's Toto Jr.) with 79 points, who competes in Z2 dressage. Granddam T-Michaella produced the ZZ-Zwaar horses Amazing (s.Tango) and Exception (s.Tango), and is herself a half-sister to the Small Tour horses Bromelia (by Gribaldi) ridden internationally by Maria Jimena Escandon, Hamalia (s.Bordeaux), and Willia (s.Gribaldi). The international Small Tour horse Berlioz (s.Vivaldi) also descends from this direct damline. Sire Ferguson was rising strongly in sport and breeding before a misstep proved fatal, and he died at only twelve years old. His Grand Prix debut was imminent, and he already produced several standout offspring, such as Kyton, Lightning Star, My Precious, Lord Platinum, and First Lewis.

**Performance raport:**

Sensation Gold is a friendly and sympathetic stallion. He is fresh but even-tempered and very focused on the rider. The walk is in four-beat, with much scope, he is nicely relaxed and shows a swinging motion. The trot is elastic with swing and scope. The hindleg could be more decisive by nature, but he allows himself to be well worked. The foreleg has good shoulder freedom. The canter is balanced and expressive with scope; he shows jump and presents an uphill silhouette. The stallion has much ability to collect and transition and allows himself to be worked exceptionally well. Sensation Gold performed very consistently throughout the test.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary raport:**

The stallion was treated with gastric medication during the performance test.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Sensation Gold can improve the walk, rideability, and trainability, and add collection

ability to the breeding of dressage horses.

### Dam rapport:

Imagine is a refined mare with much expression and a dressage-type appearance.

The mare stands sufficiently in the rectangular model and has an uphill body direction.

The head is expressive.

The poll is good in length with a light poll-neck connection.

The neck is beautifully shaped, arched upward, good in length and musculature.

The withers are well developed and sufficiently long.

The back is good in length and sufficiently muscled; the loins are sufficiently connected.

The croup is good in placement, musculature, and length.

The foreleg is correctly aligned from the front and the side.

The hindleg is correctly aligned.

The pasterns front and back are normal in length and well aligned.

The hooves are well developed, good in shape, with sufficiently high heels.

The foundation is appropriate in size, good in quality, and expresses hardness.

The walk is active, pure in rhythm, sufficiently roomy, with a hindleg that steps resolutely under. The trot is light-footed with an active hindleg that is placed under with power and impulsion; the mare forms a beautiful silhouette. The canter is very balanced with good leg technique; the mare clearly canters uphill with strong use of the hindleg and much self-carriage.

In national dressage sport, Imagine is classified at Grand Prix (Zware Tour) level.

Imagine heeft in 2016 tijdens de EPTM het volgende resultaat behaald: Walk: 8, Trot: 8.5, Canter: 9, Suppleness: 8.5, Posture & balance: 9, Rideability and workability: 8.5, Talent: 8.5, Total: 85.5 points.

Height: 1.71 m / Colour: chestnut

**SONDALE 528003202208529****21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 32, cat.nr. HK'25: 369

**05-06-2022, 1.67 M, DARK BAY**

**S.** GLAMOURDALE KEUR V. LORD LEATHERDALE

**D.** FENNE DP STB STER, PROK, VOORLOPIG KEUR

**S.** VIVALDI PREF M. NO LIMIT RP STB KEUR

**DS.** HOUSTON KEUR -- KAISERSTERN XX

BREEDER: A. VAN DEN BROEK, BOEKEL

**GER.: VAN OLST HORSES, TERHEIJDENSSPOOR 9, 4911 BW DEN HOUT**

**Exterior:**

Sondale is a stallion with good proportions in his body; he stands well in the rectangular model. The neck is well shaped and muscled, with a light throatlatch. The shoulder is long and sloping, and the withers extend well into the back. The back and loins are well muscled and well connected. The croup is slightly straight and good in length. The foreleg is correctly aligned. The hindleg is slightly straight. The hooves are well shaped and of good quality with appropriately developed heels.

**Pedigree:**

Sire Glamourdale was champion as a three-year-old at the KWPN Stallion Show, won his first world title at seven, and took double gold at the World Equestrian Games in Herning. At the Paris Olympic Games, he won two bronze medals. He is also influential in breeding, with several progeny already competing at the highest level, such as Kuvasz RS2 N.O.P., Kashmir, and Karldyr MB. Sondale is bred out of a full sister to the Intermediaire II horse Coco, ridden by Diane Rose. Through damsire Vivaldi, a proven supplier of Grand Prix horses such as Dream Boy, Desperado, Expression, and Cennin, additional quality enters the pedigree. In the third generation, via movement sire Houston, this Dutch damline traces back to the half-blood mare Eva, who also stands at the foundation of the international Grand Prix horses Ferero (s.Ferro) ridden by Chantal Wigan and Ferrari (s.Apache) ridden by Jeanine Nekeman.

**Performance raport:**

Sondale is a balanced and sympathetic stallion. He has a willingness to work and is well focused on the rider. The walk is in good four-beat rhythm with use of the body and much scope. The trot shows balance and leg technique; the hindleg could become stronger, but steps under sufficiently. The canter has balance and scope; the hindleg carries, and a good silhouette develops. Sondale uses his body well and shows ability to collect and extend. He gives the rider a good feeling and developed positively in self-carriage during the performance test.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary raport:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Sondale can improve the topline and connections within the body and add light-footedness to dressage horse breeding.

### Dam report:

Fenne is a sufficiently developed mare with an appealing forehead.

She stands sufficiently in the rectangular model.

The head is expressive.

The poll is good in length with a slightly heavy throatlatch connection.

The neck is very good in length, vertically shaped, and well muscled.

The withers are well developed but could extend farther into the back.

The shoulder is long and sloping.

The back is sufficiently long and sufficiently muscled; the loins could connect more strongly.

The croup is well placed, sufficiently long, and sufficiently muscled.

The foreleg is correctly aligned from the front and the side.

The hindleg is correctly aligned.

The pasterns front and back are normal in length and well aligned.

The hooves are well developed, broad in shape, with slightly low heels.

The foundation is appropriate in size and good in quality.

The walk is sufficiently roomy, rhythmic, and active, though the hindleg could step more resolutely. The walk is shown with much suppleness.

The trot is light-footed with good scope, characterised by swing and an elegant foreleg; the hindleg could step more powerfully under.

The canter has much activity and good leg technique; Fenne could show more suppleness in canter.

Height: 1.66 m / Colour: dark chestnut

**N.F. WITTE, OLIEEINDESESTRAAT 8, 5481 XN SCHIJNDEL**

**S. VAN DER LEI, SCHUILENBURG 1, 5271 VR SINT-MICHIELSGESTEL**

#### **Exterior:**

Scaramouche is a strongly modelled stallion with good proportions in the body; he stands well in the rectangular model. The forehand is very well modelled; the neck rises well upward from the withers and there is a light throatlatch connection behind the jaw. The shoulder is sloping. The withers are well developed and extend far into the back; the back itself could be slightly stronger. The loins are broad and well connected. The croup is good in shape and placement. The foreleg is correctly aligned from the side and from the front, and the hindleg is correctly aligned. The hooves and heels are well developed.

#### **Pedigree:**

Sire Glock's Toto Jr. achieved multiple top-level victories and competed at the 2024 Olympic Games. This Totilas-son is strongly influential in breeding, producing offspring such as Glock's Taminiau, My Toto, Glock's Massimo, and O'Toto van de Wimphof. Scaramouche also carries strong genetics on the dam's side. His dam Linskymorijke scored three 9s and a total of 84.5 points in the IBOP, and performed well in young horse championships. She is currently competing in the Small Tour under Marielle Spierings. Granddam Evymorijke performed at ZZ-Zwaar level and is well known as the dam of the KWPN-approved stallion Jones (s.Negro), who was registered with 83.5 points and is the full brother of Scaramouche's dam. Evymorijke also produced the ZZ-Licht horse Kartouche (s.Negro). In the fourth generation, the damline traces back to a half-sister of the well-known international Grand Prix horse Madorijke (s.Contango), previously ridden by Madeleine Witte-Vrees and Rien van der Schaft.

#### **Performance report:**

Scaramouche is a stallion with presence. He is alert and responsive to the rider's aids. The walk is in four-beat, diligent from the hindleg, with use of the body and good scope. The trot is rhythmic with a diligent hindleg that steps well under and carries; he shows cadence and is light-footed. The canter is balanced and rhythmic, he shows suppleness and scope, though the hindleg could show slightly more mechanical action. Scaramouche forms a beautiful silhouette and demonstrates moments of ability to take weight behind. Throughout the test, the stallion presented a stable and well-balanced overall picture.

#### **Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

#### **Veterinary report:**

No abnormalities detected.

#### **Semen examination:**

Expected fertility class: sufficient.

#### **Breeding/mating advice:**

Scaramouche kan het model verbeteren, hij kan beentechniek en schakelvermogen toevoegen aan de dressuurpaardenfokkerij.

### Dam report:

Linskymorijke is an elegant, uphill-built mare who stands very well in the rectangular model and in the dressage type.

The head is expressive.

The poll is good in length with a light throatlatch connection.

The neck is well shaped, good in length, and well muscled.

The withers are well developed and well in length.

The back is good in length and well muscled.

The loins are well connected.

The croup is slightly sloping, good in length, and sufficiently muscled.

The foreleg is slightly toe-in from the front and correct from the side.

The hindleg is correctly aligned.

The front pasterns are normal in length and well aligned.

The hind pasterns are normal in length and slightly straight.

The hooves are well developed, good in shape, with slightly high heels.

The foundation is appropriate in size and good in quality.

The walk is active and rhythmic, but should show more reach to cover more ground.

The trot is characterised by leg technique and strong use of the hindleg. The mare carries herself well and shows elegant use of the foreleg.

The canter is powerful and balanced with much mechanical action; the mare moves uphill with a strong hindleg and much posture.

In national dressage sport, Linskymorijke is classified in the Small Tour.

Linskymorijke achieved the following results at the 2020 IBOP: Walk: 7, Trot: 9, Canter: 9, Suppleness: 8, Posture and Balance: 9, Rideability and Workability: 9, Aptitude: 8.5, Total: 84.5 points.

Height: 1.72 m / Colour: black

**GER.: DRESSUURSTAL BERNOSKI, KOOILAAN 6, 2665 KR BLEISWIJK**

**P. LUERSMAN, HARRIS TRAIL NW 4269, 30327 ATLANTA**

#### **Exterior:**

Spectre is a generously developed stallion who stands well in the rectangular model. The neck emerges slightly deep from the chest, is sufficient in length, and well muscled. The shoulder is long and well placed. The withers are well developed and extend far into the back. The back and loins are strong and well connected. The croup is well placed and long. The foreleg is correctly aligned from the side, but slightly toe-in from the front. The hindleg is correctly aligned, with the pasterns being slightly straight. The hooves are sufficiently developed and of good quality; the heels are slightly under-run.

#### **Pedigree:**

Under Dinja van Liere, sire Hermès achieved a series of international victories, two bronze medals at the World Championships in Herning, and a fourth place individually at the Paris Olympic Games. Spectre is his second KWPN-approved son. Spectre is bred out of the elite mare Jamaica, who competes at international Grand Prix level with Robin Bernoski. As a four-year-old, Jamaica passed the IBOP with 80 points and was the highest placed mare (fourth) in the Pavo Cup final. Jamaica has produced multiple promising offspring, including the NMK mare Swarovski, who like Spectre is by Hermès. Granddam So What produced the international Grand Prix horse Electra (s.Jazz), who placed sixth in the World Championships for seven-year-olds and later competed for years at the highest level under Lynne Maas. She also produced the Small Tour horse Havanna (s.Sir Donnerhall I). So What appears in the second generation behind the international Small Tour horse Medoc (s.Vivaldi), ridden by Brittany Fraser. She is also the full sister of the Olympic dressage horse Mythilus, with whom Courtney King competed in Hong Kong.

#### **Performance report:**

Spectre is a generously made stallion. He is eager to learn, alert to his surroundings, yet remains focused on the rider. The walk is in four-beat and active; he still needs to develop more use of the body and scope. The trot shows impulsion and balance; he shows leg technique but must remain more consistently relaxed. When this happens, the foreleg shows shoulder freedom and technique. The canter is impulsion, scope, and balance; at this moment, he still maintains the hindquarters somewhat high. Spectre occasionally demonstrates the ability to take weight behind, leading to more body use. He showed much willingness throughout the test and clearly made positive progress.

#### **Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

#### **Veterinary report:**

No abnormalities detected.

#### **Semen examination:**

Expected fertility class: sufficient.

**Breeding/mating advice:**

Spectre can improve height and frame and add ability to collect to dressage horse breeding.

**Dam report:**

Jamaica is a generously developed mare who stands well in the rectangular model and has good body proportions.

The poll is sufficiently long with a slightly heavy throatlatch.

The neck is well shaped and long, with clear and good musculature.

The withers are well developed and sufficiently long.

The back is good in length and well muscled, with strong connection in the loins.

The croup is well placed and long, with notably good muscling.

The foreleg is correctly aligned from the front and the side.

The hindleg is slightly straight.

The pasterns front and back are normal in length and well aligned.

The hooves are well developed and well shaped, with slightly high heels.

The foundation is appropriate in size and good in quality.

The walk is rhythmic, good in scope, and shown with much looseness.

The trot has good scope and balance; the foreleg shows expression and the hindleg supports and carries well.

The canter has much jump and balance, with an active hindleg that engages with impulsion.

Under saddle, the mare demonstrates much ability to collect and transition.

In international dressage sport, Jamaica is classified at Grand Prix level.

Jamaica achieved the following IBOP scores in 2018: Walk: 8, Trot: 7.5, Canter: 8.5, Suppleness: 8, Posture and Balance: 8, Rideability and Workability: 8, Aptitude: 8, Total: 80 points.

Height: 1.80 m / Colour: dark bay

**S. WYNTON PREF M. AQITA A DP STB STER, PREF, PREST, IBOP-(DRES)**

**DS. OO SEVEN KEUR -- FERRO PREF**

**BREEDER: Z.S. GEERLIGS - DIJK, BERGENTHEIM**

**GER.: J.M. VAN UYTERT, VAN HEEMSTRAWEG 6, 6624 KJ HEEREWAARDEN**

**ANCHOR EXCELLENT HORSES B.V., ENGHERZANDWEG 38A, 3461 AE LINSCHOTEN**

**Exterior:**

Saint McLaren is a well-modelled stallion who is sufficiently long-lined. The neck emerges slightly deep from the chest but is beautifully arched upward, with good musculature. The throatlatch connection is slightly heavy. The shoulder is long and sloping. The back is slightly weak, and the loins are broad and well connected. The croup is slightly sloping and good in length. The foreleg is correct from the side and the front, with slightly steep pasterns. The hindleg is correctly aligned. The feet are slightly narrow with somewhat high heels.

**Pedigree:**

Two-time stallion competition winner McLaren is being successfully competed by Dinja van Liere in the international Small Tour at eight years old. From his first KWPN crop, he presents the premium stallion Saint McLaren, who also carries strong dressage genes on the dam's side. His dam Favorieta A competed at Z2 level and produced, in combination with Kyton, the elite mare Penny Lane, who impressed as a three-year-old with a linear score of 85/90 at the mare inspection. She then scored 87.5 points in the IBOP. Dam Favorieta A is a half-sister to the international Grand Prix horse Grandeur A (s.Jazz), ridden by Laurens van Lieren, and the international Small Tour horse Eros Easter A (s.Wynton). Granddam Aqita A also produced the international dressage horse Jefferson (s.Jazz), successful in the six-year-old classes. This is also the direct damline of the ZZ-Zwaar classified KWPN stallion New Orleans (s.Blue Hors Farrell). Moreover, this damline is built through three influential Grand Prix stallions: Wynton, OO Seven, and Ferro.

**Performance report:**

Saint McLaren is a friendly stallion with much expression. He is diligent, honest, and remarkably easy to work with. The walk is in four-beat with scope; he can still gain more relaxation. The trot shows flexion in the joints, is light-footed, and creates an appealing silhouette. The canter is well balanced, with mechanics and technique, he pushes upward well from the hindleg. Saint McLaren has balance and forms a beautiful silhouette; at times, he could show slightly more stretch. He is uncomplicated and performed very consistently throughout the test.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary report:**

The stallion was treated with gastric medication during the test.

**Semen examination:**

Expected fertility class: sufficient.

**Breeding/mating advice:**

Saint McLaren can improve balance and add willingness and composure to dressage horse breeding.

### Dam report:

Favorieta A is a long-lined mare who stands well in the dressage type.

The head is expressive.

The poll is sufficiently long with a slightly heavy throatlatch.

The neck is well shaped, sufficiently long, and well muscled.

The withers are well developed and sufficiently long.

The back is good in length and sufficiently muscled.

The loins are sufficiently connected.

The croup is slightly sloping, sufficiently long, and sufficiently muscled.

The foreleg is slightly toe-in from the front and correct from the side.

The hindleg is correctly aligned.

The front pasterns are normal in length and well aligned.

The hind pasterns are normal in length and slightly soft.

The hooves are sufficiently developed, well shaped, with slightly high heels.

The foundation is appropriate in size and good in quality.

The walk is active and rhythmic, but could show more reach to cover more ground.

The trot has good balance with a diligent hindleg that carries sufficiently; the foreleg is elegant.

The canter is active and balanced; the hindleg carries sufficiently.

In movement, she could show more stretch and use of the body.

In national dressage sport, Favorieta A is classified at Z2 level.

Height: 1.69 m / Colour: black

**SINGAPORE AVE                    528003202205436**  
**21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 38, cat.nr. HK'25: 442

**14-04-2022, 1.72 M, BAY**

**S. MCLAREN V. MORRICONE**

**D. MISTIEK DP STB ELITE, IBOP-(DRES), D-OC**

**S. GOVERNOR M. BORMIEK DP STB ELITE, PREF, PREST, IBOP-(DRES), D-OC**

**DS. TUSCHINSKI -- HITCHCOCK**

**FOK./GER.: A. VAN ERP, NISTELRODESEWEG 30, 5384 PN HEESCH**

**Exterior:**

Singapore AVE is an uphill-built stallion who stands sufficiently in the rectangular model. The neck is good in length and muscling but could be more arched upward. The withers and shoulder are well developed. The back is strong in muscling, with the loins slightly tightly connected. The croup is slightly sloping and good in length. The foreleg is correctly aligned from the side and the front. The hindleg is correctly aligned, with a well-developed hock. The hooves and heels are correctly developed.

**Pedigree:**

Singapore AVE comes from the first KWPN crop of the two-time stallion competition winner McLaren, who at eight years old is successfully competing in the international Small Tour under Dinja van Liere. On the dam's side as well, Singapore AVE inherits proven dressage genes. His dam Mistiek made a good impression in the IBOP, for which she passed with 82.5 points. She is a half-sister to the Small Tour horses Hilltop Begijnhoeve (s.Chagall D&R), owned by Rob van Puijenbroek, and Montrachet (s.Glock's Toto Jr.), who previously competed at the World Championships for five-year-olds and is now performing at Young Riders level under Lynne van Erp. Granddam Bormiek was the national foal champion and is a half-sister to the ZZ-Zwaar horse Flambeau (s.Apache). In the third generation, this Dutch damline goes back to the Hitchcock daughter Normiek, who also forms the foundation of the Grand Prix horse Griffin (s.Jazz), ridden by Tamara Uzman, the Small Tour horses Mister X (s.Painted Black) and Hippi (s.Chagall D&R), as well as the KWPN stallion Lord Romantic (s.Don Romantic).

**Performance raport:**

Singapore AVE is a stallion with blood expression.

He is obedient to the aids but needs to offer a bit more naturally by himself. The walk is in clear four-beat with activity and scope. The trot is in two-beat with a hindleg that steps under; when the trot becomes more relaxed, the foreleg shows more shoulder freedom and technique. The canter is in clear three-beat with scope; he has balance but can still develop a more uphill jump. Singapore AVE needs influence from the rider to relax; he developed positively in this during the test. He then creates more posture and carries more easily. He gives the rider a good feeling.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary raport:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Singapore AVE can improve blood expression and add a strong hindleg to the dressage horse population.

### Dam report:

Mistiek is a generously developed, strongly built mare who stands well in the rectangular model.

She is uphill-built.

The poll is sufficiently long with a light throatlatch.

The neck is very good in length, sufficiently shaped, and sufficiently muscled.

The withers are well developed but could extend further into the back.

The shoulder is long and sloping.

The back is sufficiently long and strongly connected, with well-muscled loins.

The croup is slightly sloping, sufficiently long, and sufficiently muscled.

The foreleg is correctly aligned from the front and the side.

The hindleg is correctly aligned.

The pasterns front and back are normal in length and well aligned.

The hooves are well developed, well shaped, with sufficiently developed heels.

The foundation is appropriate in size and hard in quality.

The walk is powerful, decisive, active, and sufficiently roomy.

The trot shows much mechanics, with a powerful hindleg and clear uphill tendency.

The canter shows much balance, power, and impulsion; Mistiek could show more looseness here.

Height: 1.73 m / Colour: dark bay

*This report contains the information and knowledge at the time of approval (December 2025). Some information may change based on new knowledge or data.*

**SO UNIQUE STH                      528003202203575**  
**21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 41, cat.nr. HK'25: 523

**ET, 23-04-2022, 1.70 M, DARK CHESTNUT**

**S. VIVINO V. VIVALDI PREF**

**D. L'UNIQUE STH DP STB ELITE, EPTM-(DRES), SPORT-(DRES), PROK**

**S. BOSTON STH M. ZAMBA DREAM DP STB ELITE, PREF, PREST, IBOP-(DRES),  
SPORT-(DRES), PROK, D-OC**

**DS. SAMBA HIT -- FARRINGTON KEUR**

**FOK./GER.: L.F. NEKEMAN, VERKAVELINGSWEG 17, 8061 PJ HASSELT**

**B. NEKEMAN - ALTEVEER, VERKAVELINGSWEG 17, 8061 PJ HASSELT**

**Exterior:**

So Unique STH is a refined and elegant stallion with much expression, standing well in the rectangular model. The neck is good in length, nicely arched upward with a light throatlatch connection. The shoulder is well placed and good in length.

The withers extend far into the back. The back and loins are sufficiently muscled. The foreleg is correctly aligned; the pasterns are long and slightly weak. The hindleg is slightly long. The hooves are well developed and of good quality.

**Pedigree:**

Champion stallion So Unique STH descends from the Vivaldi son Vivino, who was premium-awarded at the Hanoverian and Danish stallion inspections. Vivino is being prepared for the highest level by the Spanish rider Alejandro Asencio Mendez and has already produced several remarkable offspring. His dam L'Unique STH impressed as a three-year-old in the mare performance test, which she passed with 85 points, and she is now performing successfully in the Small Tour. In 2025, she already won the international Prix St. Georges in Compiègne under Denise Nekeman. With her performances, L'Unique STH is the third offspring of granddam Zamba Dream to compete in the Small Tour. Zamba Dream also produced three ZZ-Zwaar dressage horses. This damline continues with a half-sister to the Small Tour horses Banner Man S (s.Van the Man), Phidias (s.Gribaldi), and Waldemar S (s.Lanciano). From this direct damline, the premium stallion Pablo Picasso (s.Glock's Taminiau) was previously approved by the KWPN, and the Small Tour horses Lot of Pleasure (s.Dark Pleasure), Dominica (s.Sandreo), and Einstein D (s.Spielberg) were also bred.

**Performance report:**

So Unique STH is a refined stallion with much expression. He is alert to his surroundings but remains honest and focused on the rider. The walk has a good four-beat with use of the body, activity, and scope. The trot shows much suppleness and swing; the hindleg has mechanics but can still develop more carrying ability; the foreleg shows shoulder freedom. The canter has a clear three-beat with an uphill frame; the hindleg develops more carrying ability during the test. So Unique STH has much suppleness, which sometimes makes it challenging to achieve a stable contact. He made positive progress throughout the test.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary report:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: sufficient.

**Breeding/mating advice:**

So Unique STH can improve model and expression and add suppleness to dressage horse breeding.

**Dam report:**

L'Unique STH is a refined and appealing mare who is sufficiently long-lined.

She is uphill built and shows much blood expression.

The head is expressive.

The poll is good in length with a light throatlatch connection.

The neck is well shaped, sufficiently long, and well muscled.

The withers are sufficiently developed and good in length.

The shoulder is sloping and very good in length.

The back is sufficiently long and well muscled.

The loins are well connected.

The croup is slightly sloping, sufficiently long, and well muscled.

The foreleg is correctly aligned from the front and the side.

The hindleg is correctly aligned.

The front and hind pasterns are correct in length and alignment.

The hooves are appropriately developed, well shaped, with correct heels.

The foundation is slightly fine in size but notably hard in quality. It shows much quality.

The walk is rhythmic, through the body, and with good overtrack.

The trot is diligent with a hindleg that is placed well under; the silhouette is uphill with elegant use of the foreleg.

The canter is active and well carried; the jump could, at times, be finished more over the back; the mare shows mechanics and technique and canters uphill.

In national dressage sport, L'Unique STH is classified in the Small Tour.

L'Unique STH achieved the following results at the 2019 EPTM: Walk: 8.5 Trot: 8.5

Canter: 8.5 Suppleness: 8.5 Posture and Balance: 8.5 Rideability and Workability: 8.5

Aptitude: 8.5 Total: 85 points

Height: 1.65 m / Colour: dark bay

**KANTÉ**                      **276409090301122**  
**21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 42, cat.nr. HK'25: 806

**28-03-2022, 1.68 M, BAY**

**S. RHEINGLANZ V. HELIUM**

**D. KISS ME NOW**

**S. HIS MOMENT M. KATNISS EVERDEEN**

**DS. SAINT CYR -- FREUDENFEST**

**BREEDER: J. MIELESZKO-VEKENS, PADERBORN**

**GER.: REESINK HORSES, MOLENWEG 12, 7151 HA EIBERGEN**

**STOETERIJ TURFHORST BV, NIEUWE DIJK 5, 8091 PL WEZEP**

**Exterior:**

Kanté is a strongly built stallion who stands sufficiently in the rectangular model. The neck is good in length, though it could be more arched upward. The throatlatch connection is light. The shoulder is long and sufficiently sloping. The topline is strong and well-muscled. The croup is well placed and long. The foreleg is slightly under-set from the side and correct from the front. The hindleg is correctly aligned. The hooves are appropriately developed with correct heels.

**Pedigree:**

The Trakehner stallion Kanté descends from Rheinglanz, who was crowned champion of the Trakehner stallion licensing in Neumünster in 2020. Rheinglanz later performed well at the Bundeschampionate under Eva Möller and is now successful in national sport under Steffen Frahm. Kanté is from his first crop. On the dam's side, the pedigree also carries the genes of Millennium (via both sire and dam), since dam Kiss Me Now is State Premium and has Millennium in the second generation. Granddam Katniss Everdeen is a full sister to the Small Tour stallion Kacyro, ridden by Lune Karolin Müller. The damline continues via a half-sister of the international Grand Prix horse Kavalou (s.Shavalou), ridden by Peter John Weston. From this direct line also descends the Trakehner premium stallion Karim Doré (s.Perpignan Noir). Damsire His Moment was champion at the Trakehner stallion licensing as a three-year-old and was used on a limited scale before his death at only ten years old.

**Performance raport:**

Kanté is a sympathetic stallion. He responds well to the aids and is focused on the rider. The walk is in four-beat, showing scope and relaxation. The trot is in good in two-beat; the hindleg is placed correctly under and the stallion shows balance. The trot could gain more power and shoulder freedom. The canter is active; the hindleg could develop more mechanics but carries well. The canter shows a pleasant self-carriage. Kanté works well over the back with a steady connection, presents a stable picture in all gaits, and performed consistently throughout the test.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary raport:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Kanté can contribute to blood diversity, improve the walk, and add light-footedness to dressage horse breeding.

### Dam report:

Kiss Me Now is an appealing mare with a well-shaped forehead.

She stands sufficiently in the rectangular model.

The head is expressive.

The poll is sufficiently long with a correct throatlatch connection.

The neck is very well shaped, good in length, and well muscled.

The withers are sufficiently developed and good in length.

The back is sufficiently long and sufficiently muscled.

The loins are sufficiently connected.

The croup is slightly sloping, sufficiently long, and sufficiently muscled.

The foreleg is slightly toe-in from the front and correct from the side.

The hindleg is correctly aligned.

The front pasterns are normal in length and well aligned.

The hind pasterns are normal in length and slightly soft.

The hooves are slightly narrow, sufficiently shaped, with somewhat high heels.

The foundation is appropriate in size and good in quality.

During the evaluation, the mare was heavily pregnant and not entirely regular.

For this reason, she was not shown loose in movement.

Height: 1.66 m / Colour: bay

## **MAGIC MCKEE L 208333202130957**

### **21-day performance test/dressage stallions – autumn 2025**

Cat.nr. onderzoek: 44 cat.nr. HK'24: 525

**02-04-2021, 1.77 M, BLACK**

**S. TOTAL McLAREN V. TOTILAS ERK**

**D. N-JOY L**

**S. NEGRO PREF M. FALSETT L**

**DS. FLORESTAN I -- CASCADEUR**

**FOK./GER.: L HORSES, VROLDVEJ 125, 8660 SKANDERBORG**

**GER.: STAL VAN DE SANDE, DAZINGSTRAAT 1, 5298 LP LIEMPDE**

#### **Exterior:**

Magic McKee L is a long-legged, generously developed stallion who stands well in the rectangular model. The forehead is well developed with a long, upward-arched neck that is very well muscled. The shoulder is long and sloping. The withers are well developed; the back is slightly weak. The loins are broad and sufficiently muscled. The croup is well placed and long. The foreleg is correctly aligned from the side and the front. The hindleg is slightly long. The hooves are generously developed and of good quality. The heels are appropriately developed.

#### **Pedigree:**

The Totilas son Total McLaren made a strong impression as a three-year-old at the KWPN Stallion Show, where he was selected. After being sold to Denmark, he was approved there as well as in Germany. As a four-year-old, Total McLaren won bronze at the Danish Dressage Championships, followed a year later by another bronze medal at the Bundeschampionate for five-year-olds. Due to an injury, Total McLaren is now used exclusively for breeding, and from his first crop comes this Danish-bred Magic McKee L, who on his dam's side represents a damline of Swedish origin. In the second generation, the influential stallion Negro contributes his proven dressage genes to this versatile family. Granddam Falsett L produced, among others, the Small Tour dressage horse Bellair L (s.Belissimo), ridden by Andrea Bjørk Vinther Dahl. In the third generation we find the international show jumping mare Catia Z, who competed successfully with Jos Lansink. She produced several international show jumpers, including the 1.60m-classified Clochard. This direct line also produced the European Championships dressage horse Fitou L (s.Florestan I) ridden by Lone Bang Zindorff, the U25 Grand Prix horse Fuerst Fahrenheit L (s.Fürst Piccolo), and the national Grand Prix horse Hampton (s.Blue Hors Hotline).

#### **Performance report:**

Magic McKee L is an impressive horse in appearance. He is sharp, honest, and quick to the aids. The walk has a clear four-beat, active, and shows scope; he should maintain stepping through more consistently. The trot has much power; the hindleg carries well with strength; the foreleg shows shoulder freedom and knee action. The canter is expressive, powerful, and uphill; he shows jump and presence. Magic McKee L transitions very easily and takes weight on the hindleg. The contact is constant and stable, although at times he grinds his teeth slightly. He delivered a very consistent performance throughout the test.

#### **Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

#### **Veterinary report:**

No abnormalities detected.

#### **Semen examination:**

Expected fertility class: sufficient.

**Breeding/mating advice:**

Magic McKee L can add leg technique and mechanics to breeding, and improve the ability to collect and transition.

**Dam report:**

N-Joy L is a slightly short-legged mare who stands well in the rectangular model.

The poll is sufficiently long with a sufficiently clear throatlatch connection.

The neck is good in length, sufficiently shaped, and sufficiently muscled.

The withers are sufficiently developed and extend far into the back.

The shoulder is sufficiently long and correctly placed.

The back is well muscled; the loins are strongly connected.

The croup is slightly sloping and could be slightly longer.

The foreleg is slightly under-set from the side and toe-in from the front.

The hindleg is slightly straight.

The front pasterns are sufficiently correct; the hind pasterns are soft.

The hooves are sufficiently developed with appropriate heels.

The foundation is somewhat heavy and sufficiently hard in quality.

The walk is active, rhythmic, and sufficiently roomy.

The trot is sufficiently roomy with active hindleg use and sufficient balance.

The mare was heavily pregnant and was only shown in hand.

Height: 1.65 m / Colour: chestnut

**GER.: REESINK HORSES, MOLENWEG 12, 7151 HA EIBERGEN**

**Exterior:**

Fiji is a long-legged and long-lined stallion. The neck is long but could be more arched upward. The throatlatch connection is light. The shoulder is good in placement and length. The back and loins are well muscled and well connected. The croup is correctly placed but could be longer in proportion. The foreleg is correct from the side, though the pasterns are slightly steep; from the front the stance is slightly French. The hindleg is slightly long. The hooves and heels are well developed and of good quality.

**Pedigree:**

Fiji is a son of the Oldenburg champion stallion For Romance, who has been competed by Therese Nilshagen at national Grand Prix level. For Romance is developing into a significant Grand Prix sire with offspring such as Just Romance, Forsazza de Malleret, and For Naja. Fiji is bred out of a half-sister of the international Grand Prix horse Crocket Times (s.Sorento), ridden by Rob van Puijenbroek. Granddam Mitta also produced several Z1/Z2 horses and appears in the second generation behind the Small Tour horse Groovy Times (s.Zhivago), ridden by Amber Hage. Damsire Charmeur, a Grand Prix sport and breeding stallion, adds performance genes and is represented at the highest level by offspring such as Heartbeat W.P., Herr Charmeur Coolhorses, Charmer, and Hero-K. In the fourth generation, this damline traces back to the Westphalian half-blood mare Najade (s.Lucius xx). She produced the KWPN stallion Zandman (s.Amor) and stands at the foundation of the KWPN-approved Small Tour stallion Sir Sinclair (s.Lord Sinclair).

**Performance report:**

Fiji is a stallion with presence and expression. He is focused and reacts well to the rider's aids. The walk has a clear four-beat, with scope and use of the body; he steps through well. The trot shows impulsion and body use; he has improved in working through the back, allowing better hindleg engagement. The foreleg is placed elegantly with much shoulder freedom. The canter is balanced with an active hindleg; he occasionally shows ability to take weight behind. Fiji developed further in his back use during the test and presents an appealing silhouette. His mindset and workability allow him to develop his qualities well under the rider.

**Offspring inspection report**

Uniform collection of offspring in type and movement.

The offspring are well developed, long-legged, and show blood expression.

They have well-developed forehands with long necks, sometimes emerging slightly deep from the chest. They have long withers and good shoulder formation; the back is well positioned and the loins are broad and strongly muscled. The foundation is well developed, though the hind pasterns are somewhat steep with some regularity.

The forelegs are generally correct. The walk is generally good through the body, pure in rhythm, active, with very good overtrack. The trot is light-footed with good use of the foreleg and forehand. The hindleg shows good flexion and carries sufficiently, though occasionally could be more engaged. The foals generally canter easily with balance and sufficient jump. The canter has three-beat rhythm but could sometimes stay more through the back. A number of above-average foals were present in the inspection.

**Stable behaviour:**

Honest, reliable stallion, easy to handle and quiet in the stable.

**Veterinary raport:**

No abnormalities detected.

**Semen examination:**

Expected fertility class: good.

**Breeding/mating advice:**

Fiji can improve the canter and add willingness and rideability to dressage horse breeding.

**Dam report:**

Happy Times is a well-developed, riding-type mare who stands well in the rectangular model.

The head is expressive, slightly long.

The poll is good in length with a correct throatlatch connection.

The neck is good in length, well shaped, and sufficiently muscled.

The withers are well developed but could extend further.

The shoulder is correctly placed and very good in length.

The back is slightly weak, good in length, and well muscled.

The loins are well muscled and well connected.

The croup is well placed, sufficiently long, and well muscled.

The thigh is well in length.

The foreleg is correct from the front and slightly hollow from the side.

The hindleg is correctly aligned.

The front pasterns are sufficiently long and slightly soft;

the hind pasterns are well in length and slightly soft.

The hooves are well developed, of good quality, with correctly developed heels.

The foundation is well developed and sufficiently good in quality.

The walk is active, sufficiently roomy, and sufficiently supple.

The trot is sufficiently roomy with good shoulder freedom, sufficient suppleness, good hindleg use, and much posture.

The canter is powerful, sufficiently roomy, with good balance and much posture.

Height: 1.69 m / Colour: black
