Article 2. Applicability of General Auction Conditions and other applicable conditions

- a. These General Auction Conditions apply to all Contracts as well as all legal relationships between the KWPN and Participant, including but not limited to the Auction and the Auction Service. Certain (specific) parts of these General Auction Conditions further apply to the Purchase Agreement and, therefore, to the arrangements between Buyer and Seller to the extent that the provisions apply to the rights and obligations between Bidder/Buyer and Seller. The foregoing expressly does not make the KWPN a party to the Purchase Agreement.
- b. Upon concluding the Contract and/or using the Auction service, the Participant is deemed to have accepted the applicability of these General Auction Conditions. The applicability of any other general terms and conditions (on the part of the Participant) is excluded. By participating in the Auction and/or by using the Auction Service, the Participant agrees to the applicability of the present General Auction Conditions in relation to both the KWPN (as the facilitating party) as well as in relation to the Seller.
- c. All provisions in these General Auction Conditions were created for all those who work or worked for, in support of and/or on behalf of KWPN. They may rely directly on the provisions of these General Auction Conditions, as if they were the KWPN themselves.

Article 3. Auction

- a. The KWPN organizes and facilitates the Auction merely as an intermediary and, in that capacity, puts up one or more Horses and/or Embryos for Auction at the instruction of the Seller, without being or becoming party to the Purchase Agreements (to be) concluded.
- b. The KWPN determines the dates and times when the Auction occurs.
- c. The KWPN determines the order of the Horses and/or Embryos that will be auctioned off.
- d. An Online Auction closes at a predetermined date and time. The duration of the Online Auction is indicated on the Auction Website. In the event that a bid is placed on a Horse and/or Embryo within the final five minutes prior to the Online Auction's closing time, the closing time will be extended by 3 minutes (after each new bid). The final closing will be 3 minutes after the final bid.
- e. An auctioneer appointed by KWPN will be in charge of the Physical Auction, subject to notarial supervision by a Civil-law notary appointed by KWPN.
- f. KWPN determines the order and the sequence of the Auction. KWPN is entitled to refuse or attach conditions to anyone seeking entry to or participation and/or Enrollment in the Auction without giving reason.
- g. The Participant is aware and agrees by participating in the Auction that KWPN may set further requirements for the participation of a Horse and/or Embryo in the Auction, including (but not limited to) requirements in relation to the (radiologic and clinical) examination of a Horse and/or Embryo, the natural sports talent of a Horse and (other) veterinarian requirements. KWPN may at all times refuse participation of a Horse and/or Embryo in the event of a failure to comply with the aforementioned requirements or on other grounds, to be

determined by KWPN or its selection committee. This refusal may also occur after a Horse and/or Embryo has been selected. The decision of (the selection committee of) KWPN is binding. In the event that an Embryo has been implanted into a surrogate mare, the provisions of this article (also) apply to the (surrogate) mare in which the Embryo was implanted. KWPN is never obligated to pay compensation of any damage and/or costs to Participant arising from or as a result of a decision within the meaning of this paragraph.

- h. Horses and/or Embryos offered at Auction will be auctioned off/sold by the Seller (without further inspection), without claim or compensation, in the state in which they are at the time of the Award, without liability on the part of the KWPN regarding the value, condition or state/quality of the auctioned Horses and/or Embryos.
- i. A Purchase Agreement will be concluded between Buyer and Seller as a result of the Award, without KWPN being party to that Purchase Agreement. For the formation of a Purchase Agreement in Physical Auctions, KWPN will provide Buyer with a Purchase Agreement on behalf of the Seller, to be signed by the Buyer at the Auction. In the event of an Online Auction, the Buyer is obligated to complete, sign and return the Purchase Agreement to KWPN within 7 calendar days of the day of it was sent. In Online Auctions, KWPN will send a (email) message to the Buyer on behalf of the Seller confirming the formation of the Purchase Agreement.
- j. The Horses and/or Embryos put up for Auction will be sold through an 'English Auction' (an open-outcry ascending dynamic auction), starting with a minimum opening bid to be announced at the Auction, unless the KWPN determines that the Auction, or part thereof, will be a 'Dutch Auction' (an open-outcry descending-price auction). KWPN is entitled to alter the manner in which the Auction is conducted at any time during the Auction. Both an 'English Auction' as well as a 'Dutch Auction' are merely an invitation of the Seller to place a bid. If, in the opinion of KWPN, there are reasonable grounds for doing so, KWPN is entitled not to recognize a bid.
- k. The Seller will provide the Bidder with the opportunity to view the Horses, or, in case of an Embryo implanted in a surrogate mare, the mare involved, prior to the Auction. This is included in the additional provisions of these General Auction Conditions (Part H) for the relevant Auction.
- l. A Seller can withdraw a Horse and/or Embryo from the Auction in the event that a Horse and/or an Embryo is unable to participate in the Auction. Only if the Seller can demonstrate, by submitting a veterinary report from a licensed veterinarian (including the veterinarian appointed by the KWPN on selection day), that the Horse and/or Embryo is unable to participate in the Auction, may the Horse and/or Embryo be withdrawn, without reimbursement of the Registration Fee. KWPN may at all times refuse withdrawal of a Horse and/or Embryo in the event of a failure to comply with the aforementioned requirements or other grounds, to be determined by the KWPN or its selection committee. The decision of (the selection committee of) KWPN is binding. KWPN shall never be obligated to pay compensation of any damage and/or costs to the Seller arising from or as a result of a decision within the meaning of this paragraph. Should a Horse and/or Embryo be withdrawn for reasons other than a decision of the KWPN or without submitting a medical report, the Seller will owe a compensation of € 1.000 (exclusive of VAT) for Auctions other than the KWPN Select Sale. For the KWPN Select Sale this compensation shall be 5.000,-- (exclusive of VAT).

Article 4. Payment obligations of the Buyer

- a. The Buyer must pay the Purchase Price due to the Seller immediately after the Auction has ended, therefore on the same day, but no later than within 7 days after the Auction has been concluded (final deadline), in Euros, by transferring the Purchase Price to KWPN who, by virtue of the assignment that is part of the Auction Service, is authorized to take receipt of the Purchase Price on behalf of the Seller. Payment of the Purchase price by Buyer should occur without discount or setoff. The Purchase price includes VAT, the amount of which depends on the capacity and the nationality of the Buyer. The Auction amount is always an amount exclusive of VAT.
- b. Buyer may only discharge Seller by payment to the KWPN as described in Article 4.1. Buyer is not authorized to pay to anyone other than the KWPN. If the Buyer pays the Purchase Price to someone other than KWPN, Buyer has failed to meet its payment obligation. In that case, the transfer of ownership of the Horse and/or Embryo will not (yet) be made to Buyer.
- c. Upon receipt of Buyer's payment, KWPN will verify the origin of the Purchase Price. Among other things, it will examine whether the origin of the Purchase Price matches the identity of the Buyer. Furthermore, it will examine whether the (payment of the) Purchase Price complies with applicable legislation (such as sanctions legislation).
- d. The Purchase Agreement will be effected under the resolutive condition that, if the verification as described in Article 4.c. shows that the origin of the payment does not match the identity of the Buyer and/or the Buyer - after being asked for clarification by the KWPN - cannot provide a sound explanation for this, KWPN may dissolve the Purchase Agreement (on behalf of the Seller and without prior consultation with the Seller). This resolutive condition must be invoked through a written statement from KWPN to Buyer with a copy to Seller within 5 working days after the receipt of the payment. Seller has granted KWPN an irrevocable authorization for this purpose.
- e. In the event that the Buyer does not, or not timely, meet its payment obligations, the Seller shall be entitled to dissolve the Purchase Agreement and sell the Horse and/or Embryo to a third party. In such a case, the Buyer shall never be entitled to any compensation of damages or refund of any kind, including (but not limited to) a claim in regard to any surplus proceeds of the Horse and/or Embryo. In the event of lower proceeds of the Horse and/or Embryo, the Buyer shall be obliged to compensate the Seller for the damage consisting of the difference between the Purchase Price and the lower proceeds.
- f. If the Buyer does not or not fully meet its payment obligations on time, the Buyer shall owe KWPN the administration costs amounting to 6% of the Purchase Price for costs incurred by KWPN in collecting the amounts owed by the Buyer and the Buyer shall owe KWPN all judicial and extrajudicial costs arising from the collection of the claim against the Buyer, with a minimum of € 1.000, excluding VAT. The Buyer will not be entitled to a setoff unless the Buyer is a Consumer.

Article 5. Delivery

- a. The additional provisions of these General Auction Conditions list the circumstances of delivery and acceptance of the purchased Horse and/or Embryo for each Auction.
- b. Without prejudice to the provisions of the additional parts of the General Auction Conditions, ownership of the Horse and/or Embryo will only transfer to the Buyer upon payment of the full Purchase Price and any other amounts Buyer owes to KWPN. KWPN is entitled to take receipt of the Purchase Price on behalf of the Seller in its capacity of intermediary. As long as KWPN has not received payment of the full Purchase price from the Buyer, the Seller will retain

- ownership of the Horse and/or Embryo irrespective of whether the Horse and/or Embryo was delivered to the Buyer.
- c. Without prejudice the other provisions in these General Auction Conditions, KWPN shall in no way be liable towards Seller in the event that Seller has delivered a Horse to Buyer and the Buyer fails to meet its payment obligations towards Seller and the retention of title for the Horse and/or Embryo ceases to exist after the delivery of said Horse and/or Embryo.
 - d. Barring any other arrangement or provision to the contrary, the Buyer shall be required to accept possession of the Horse from the Seller no later than 14 calendar days after full payment was made to KWPN. If Buyer refuses to accept or is negligent, Buyer shall be in default towards Seller and shall be obligated, among other things, to reimburse Seller for any damage and costs, without prejudice to any other rights, and to pay all related additional costs, including stable costs, in which case Seller shall not surrender the Horse until and as soon as the aforementioned costs have been paid in full.
 - e. The Seller must provide a passport and registration papers for the Horse to the Buyer upon the delivery/acceptance of the Horse. In the event that an Embryo has been implanted into a surrogate mare, the Seller must provide the Buyer with the surrogate mare's passport upon delivery/acceptance of the implanted Embryo.
 - f. Upon acceptance/delivery of the purchased Horse and/or for an Embryo, the surrogate mare, the Buyer shall exercise due care and must follow the instructions given by or on behalf of the Seller unconditionally and in full. The Buyer is liable for any damage caused in the delivery/acceptance of the Horse and shall indemnify KWPN and the Seller against any third-party claims in this respect.
 - g. The additional conditions section of these General Auction Conditions lists the moment of risk transfer of the Horse and/or Embryo for each specific Auction. Should no specific additional condition apply, the general provisions of article 6 shall apply.
 - h. Seller and Buyer must inform KWPN in writing within 7 calendar days after the delivery/acceptance of the Horse and/or in case of an Embryo, the surrogate mare, by returning the Delivery Contract.
 - i. If the Buyer believes that the Horse has a stable vice, stable vices or other defects, Buyer must inform the Seller in writing within 7 calendar days after actual delivery/acceptance with as detailed a description as possible of the nature of the stable vice and/or defects. Seller has designated KWPN as the party to whom Buyer must send the notice referred to in this article without the KWPN being involved in the Purchase Agreement between Buyer and Seller in any way. KWPN shall pass on the notification to the Seller. The Seller and the Buyer will then engage in independent discussions (without interference from KWPN) on the consequences of the defect alleged by Buyer, in which case the Seller has the right to undo the purchase after receiving the notification from the Buyer as referred to in this article. If, for whatever reason, KWPN is involved in or performs actions relating to or following the notification referred to in this article, KWPN does so merely as an intermediary and is never bound in any way whatsoever to the (consequences of) Purchase Agreement between Buyer and Seller or to the consequences of the alleged defect.

Article 6. Transfer of Ownership Horse and/or Embryo

- a. Ownership of the purchased Horse and/or Embryo (if all conditions for a legally valid transfer are met) is transferred to the Buyer at the time of delivery/acceptance as referred to in these General Auction Conditions, but never before the Buyer has paid the full Purchase Price and

any other amounts owed by the Buyer to KWPN acting on behalf of the Seller, in connection with the Purchase Agreement and/or the Horse, including those related to work carried out or to be carried out for the benefit of the Buyer and/or on account of claims due to a failure in the performance of the Purchase Agreement.

- b. KWPN cannot guarantee that the Seller can transfer free and unencumbered ownership of the Horse and/or Embryo to the Buyer. KWPN is never liable towards Buyer for any damage in that regard.
- c. The risk of the Horse and/or Embryo transfers in the following way:
 - I. If the Buyer is a Consumer, the Horse will be at the risk of the Buyer as of the moment of delivery. As of that time, all obligations, responsibilities and liabilities, as well as all risk factors in relation to the Horse, will have transferred to the Consumer Buyer involved. The Consumer Buyer indemnifies KWPN against any third-party claims in this regard.
 - II. If the Buyer is not a Consumer, the Horse will be at the risk of the Buyer as of the moment of the Award. As of the Award, all obligations, responsibilities and liabilities, as well as all risk factors in relation to the Horse, will have transferred to the Buyer involved. The Buyer indemnifies KWPN against any third-party claims in this regard.

Article 7. Termination Purchase Agreement

In the event that the Purchase Agreement is terminated or annulled or ended by mutual agreement between Buyer and Seller, this does not impair the agreement between KWPN and the Participant or any (payment) obligations arising from it.

Article 8. Right of Withdrawal for Consumer Buyer at an Online Auction

- a. The provisions of this article apply to Online Auctions in which the Buyer is a Consumer and the Seller is not a Consumer. The provisions in this article do not apply in the event of a sale by a Consumer-Seller to a Consumer-Buyer.
- b. In the event of a sale between a non-Consumer Seller and a Consumer Buyer, the Consumer-Buyer may terminate a Purchase Agreement with respect to the purchase of a Horse and/or Embryo through an Online Auction during a reflection period of maximum 14 calendar days without giving reasons pursuant to its statutory right of withdrawal under article 6:230o et seq. of the Dutch Civil Code. The Seller may ask the Buyer for the reasons behind the withdrawal but cannot obligate the Buyer to disclose its reason(s). The reflection period referred to in this article commences on the day after the Buyer, or the third party designated by the Buyer in advance, not being the carrier, has received the purchased Horse and/or in case of an Embryo, the surrogate mare.
- c. If the Buyer exercises its statutory right of withdrawal, the Buyer shall inform the Seller and the KWPN unequivocally in writing within the reflection period. This notification must be sent without delay, but within 14 calendar days from the day following the notification referred to in this article, the Buyer will put the Horse and/or in the case of an Embryo the broodmare at the disposal of the Seller or return the Horse and/or in the case of an Embryo the broodmare to the Seller. This is not required if the Seller has offered to pick up the Horse and/or Embryo itself. In any event, the Buyer has complied with the 14-day period if he transports the Horse back before the reflection period expires.

- d. Buyer shall return the Horse and/or Embryo to Seller with - insofar as applicable - all accessories supplied and in accordance with the reasonable and clear instructions provided by Seller.
- e. The risk and the burden of proof of the timely and correct invocation of the right of withdrawal lie with the Buyer.
- f. The costs arising from the return of the Horse and/or Embryo, including transportation, are at the expense of Buyer.
- g. During the reflection period and the return, the Buyer shall handle the Horse and/or Embryo with due care and, if provided, in accordance with the instructions provided by the Seller
- h. If the Buyer exercises its statutory right of withdrawal, all supplementary agreements will be terminated by operation of law. In the event of withdrawal, the Seller will still owe the Registration fee to KWPN, with the exception of the Commission.
- i. Seller shall return the Purchase price (including any costs of transportation of the Horse and/or Embryo for delivery to Buyer) to Buyer, promptly but always within 14 calendar days following the day on which the Buyer announces its withdrawal. Unless the Seller offers to collect the Horse and/or Embryo itself, the Seller may postpone the return of the money until it receives the Horse and/or Embryo.
- j. The Seller shall use the same means of payment used by the Buyer for the refund unless Buyer agrees to a different means of payment. The refund is free of charge for the Buyer.
- k. In the event that the Buyer opted for a more expensive means of transportation of the Horse and/or Embryo, the Seller does not have to return the additional costs for the more expensive means.
- l. Buyer is liable towards Seller for any decrease in value of the Horse and/or Embryo arising in the period between delivery to Buyer and return to Seller.

Article 9. Information / (digital) catalog / examination by a veterinarian

- a. A Participant in the Auction that wishes to put its Horse and/or Embryo up for Auction must provide to KWPN all information and documents required for the digital catalog that KWPN considers necessary for the compilation of the catalog, as well as all details and information that the Participant knew or reasonably should know that the KWPN requires in a timely manner and in the format and manner required by the KWPN.
- b. The Participant guarantees to KWPN the accuracy, completeness, reliability, and legitimacy of the information and documents made available to KWPN. The previous also applies if these were provided through third parties or obtained from third parties.
- c. The Participant indemnifies KWPN against any third-party claims relating to information in the catalog that was issued by or on behalf of the Participant.
- d. Without prejudice to the provisions in the preceding paragraphs, KWPN shall compile the (digital) Auction catalog with the utmost care. The information in the (digital) catalog is merely aimed at providing a Participant with an impression of the quality of the Horses offered at the Auction, without KWPN claiming completeness and without any rights being derived from its accuracy.
- e. If the Horse offered at Auction or, in the case of an Embryo, the surrogate mare, must undergo an examination by a veterinarian as part of the selection procedure for the Auction, these reports may be requested from KWPN on the understanding, however, that KWPN can never be held responsible or liable for any inaccuracy or

incompleteness of a report. The contents of these veterinarian reports bind both the KWPN and the Participant.

- f. If Participant has not (timely or fully) complied with the provisions in this article, resulting in KWPN not being able to conduct the Auction in a correct or complete manner, this will never constitute a failure on the part of KWPN. Nor shall KWPN be liable towards Participant for any damage suffered or to be suffered as a result of Participant's failure to comply with the provisions of this article.

Article 10. Turnover tax

- a. Changes in the current VAT rate may result in a corresponding adjustment of the applicable VAT percentages.
- b. Prior to the Auction of a Horse and/or Embryo, the applicable VAT regime for each Horse will be announced.
- c. If in the event of a transfer of auctioned Horses and/or Embryos to another member state of the European Union, a Buyer requests that invoicing done at the 0% VAT rate, the Bidder/Buyer undertakes to fulfill all the necessary conditions for this purpose in order to achieve a legally valid intra-community transaction.
- d. Should the application of the 0% VAT rate turn out not to be possible (afterward), the Buyer shall then owe the amount equal to the amount that would have been due had the Horse been transferred domestically. The Buyer is obligated to pay the aforementioned amount to KWPN immediately on request. In that event, any refund of that amount shall first and only be made after the Buyer has met its obligations under article 4. The Buyer shall be liable and indemnifies the KWPN against any damage arising from the non-compliance with the terms of article 9.3. Furthermore, Buyer shall be liable for all (extra) judicial costs incurred by KWPN, with a minimum of € 1.000,- exclusive of any VAT due.

Article 11. Force Majeure

- a. In these General Auction Conditions, force majeure pursuant to article 6:75 Dutch Civil Code includes, in addition to the contents of the law and jurisprudence: all external causes and their consequences, whether anticipated or not, that are beyond KWPN's control, yet render KWPN or a third party engaged by KWPN unable to fulfill its (or their) obligations or making the fulfillment of the Contract so impossibly onerous and/or disproportionately costly that fulfillment of the Contract cannot reasonably be expected of KWPN. These include, but are not limited to:
 - a. strikes in the company of the KWPN or the company of third parties that are involved in the performance of the Contract;
 - b. instructions or requests by a government agency and/or a local authority and/or any natural person authorized to act on behalf of such an authority;
 - c. changes in the law and/or regulations as a result of which KWPN is not (any longer) able to meet its obligations, or that make that fulfillment of the Contract cannot reasonably be expected of KWPN as this would be impossibly onerous and/or disproportionately costly;
 - d. the outbreak of infectious diseases;
 - e. pandemics and/or epidemics, as well as any (government), measures taken in response;
 - f. extreme weather conditions;

- g. the circumstance that KWPN does not, not timely or not correctly receive a deliverable from a third party that it requires for its own delivery as a result of force majeure on the part of this third party.
- b. KWPN may suspend its obligations arising from the Contract during the period that the force majeure continues. Should the force majeure situation surpass a period of 1 month, both KWPN and KWPN shall be entitled to terminate the Contract in writing.

Article 12. Exclusion and Limitation of Liability KWPN / Indemnification of KWPN

- a. If it is established in law or otherwise that KWPN is liable towards the Participant for damage suffered in connection with the Agreement and/or the Auction (service), or arising from a wrongful act, or on any other basis, this liability, including any payment obligation pursuant to article 6:230 Dutch Civil Code and/or article 6:271 Dutch Civil Code, shall be limited to a total as regulated in these provisions:
 - a. KWPN shall not be liable towards the Participant for damage as a result of the provision of incorrect or incomplete information, regardless of the nature and/or the scope of the damage and the information involved and regardless of the origin of said information.
 - b. KWPN shall not be liable for damage arising prior to, during and/or after the Auction caused by or to persons and/or by or to items of property and/or by or to Horses and/or Embryos.
 - c. KWPN shall not be liable for direct or indirect damage of whatever nature and scope resulting from a failure in the performance of an obligation by a third party (or parties), including but not limited to, failure in the proper fulfillment of obligations of Buyer and/or Seller or a third party involved by Buyer and/or Seller, and/or resulting from any acts and/or omission by the Participant.
 - d. KWPN shall not be liable towards Participant for any damage caused by Participant itself.
 - e. KWPN shall never be liable for any damage suffered as a result of the transfer of a Horse and/or Embryo not being free and unencumbered.
 - f. KWPN shall never be liable for any defect in the Horse and/or Embryo.
 - g. KWPN shall never be liable for any lost profit, lost income, lost turnover, lost savings, or any other loss suffered by the Participant, nor for any damage excluded elsewhere in these General Auction Conditions.
 - h. KWPN's liability, including any payment obligation towards Participant under an obligation to undo and any payment obligation under article 6:230 Dutch Civil Code is at all times limited to the amount covered by KWPN's liability insurance in a particular case. Should the liability insurance of KWPN, for whatever reason, not pay out, the liability of KWPN shall at all times be limited to a maximum of € 10,000,--.
- b. These limitations do not apply in case of intent or deliberate recklessness on the part of KWPN and/or its managers.
- c. Participant is aware and agrees by participating in the Auction that KWPN does not take out insurance on behalf of the Seller and/or Buyer of the Horse and/or Embryo in question. Given that the Buyer and the Seller participate in the Auction entirely at their own expense and risk, KWPN advises them to take out this insurance themselves.

- d. Claims for compensation must be reported to KWPN in writing, at the risk of such a claim lapsing, no later than one year after the day on which Participant or a third party became aware of the damage and KWPN's liability.
- e. Seller indemnifies the KWPN against any claims by a third party (or parties) arising from any incorrect and/or incomplete information issued by or on behalf of Seller for the purpose of the Auction.
- f. Participant indemnifies KWPN against any claims by a third party (or parties), including but not limited to, other Participants, for any damage, irrespective of its nature and scope.

Article 13. Privacy Statement

KWPN shall use the Personal Data of the Participant in accordance with the provisions of the Privacy Statement on its Auction website. Participant should always consult the latest changes to the Privacy Statement when visiting the Auction Website. Participant agrees that its Personal Data entered upon Enrollment or application will be used for inclusion in the prospectus. Participant provides KWPN with unconditional permission to use this Personal Data for, among other things, the prospectus.

Article 14. Disputes and Applicable Law

- a. The legal relationship between KWPN and Participant as well as the legal relationship between Seller and Buyer shall exclusively be governed by Dutch law, with the complete exclusion of the Vienna Sales Convention (CISG).
- b. In the event that a dispute arises about the course of events at Auction during the Auction itself, KWPN is competent to deliver a binding opinion on the matter and authorized to continue the Auction as an English Auction (an open-outcry ascending dynamic auction). If KWPN requests a civil-law notary to render an opinion on the course of events during the Auction, the notary's decision will be binding and irrevocable for all parties.
- c. In the event of a dispute between the parties, other than those that are subject to the opinion of (the auctioneer of) KWPN or the civil-law notary, only the competent judge of the District Court of Midden-Nederland, location Utrecht, shall be competent. In the event of a dispute between KWPN and/or Seller and a Buyer, being a Consumer, the court of the country of residence of the Buyer, or if the Buyer (being a Consumer) is a defendant, is also exclusively competent.

Article 15. Other provisions

- a. KWPN reserves the right to change these General Auction Conditions unilaterally. In the event of a change, the new General Auction Conditions shall apply as of the next Auction.
- b. Should a provision in these General Auction Conditions not be legally valid, this does not affect the legal validity of the other provisions. In that event, the provision involved will be replaced by a new provision in which the scope of the void/voided provision is approximated as much as possible.
- c. In case of conflict between the content of these General Auction Conditions and translations of these General Auction Conditions, the original Dutch text shall prevail.

- a. A jury composed by KWPN assesses and selects the foals that qualify for participation in the Auction based on the criteria set out by KWPN, including (although not limited to) the criteria included under B. KWPN is authorized to change the criteria from time to time unilaterally. A decision by the jury shall be binding on the Seller.
- b. The Auction shall admit foals that:
 - i. are registered with KWPN;
 - ii. were selected by the jury appointed by KWPN;
 - iii. are free of observable defects, including (but not limited to) stable vices;
 - iv. have been presented and filmed and photographed on the photo and video day organized by KWPN, the date and time of which will be set and communicated by KWPN.
 - v. have been clinically examined on the photo and video day organized by KWPN for abnormalities of the eyes, heart, lungs, teeth, and, if a stallion is involved, the genital organs. A veterinary report of the veterinary clinical examination is prepared, which can be inspected (online). This inspection is performed by an licensed veterinarian appointed by the KWPN.

Article 56. Delivery

In the event of a Young Jumping Foal Sale, the delivery of a foal will be made by the Seller to the Buyer. If a Buyer resides outside of the Netherlands, the Seller shall deliver the foal to an address within the Netherlands indicated by the Buyer. The delivery of a foal will take place upon the foal reaching the age of 5 months but before the foal is 5.5 months old, unless in the event that a foal is older than 5.5 months at the time of the Award, in which case the provisions of the following article apply. Buyer shall not owe any compensation to Seller for the period until delivery.

Article 57. Risk transfer

- a. In the Young Jumping Foal Sale, the risk of the foal transfers in the following way:
 - a. if there is a Purchase Agreement regarding a foal that is 5 months or older at that time, the risk of the foal shall transfer to Buyer at the time of actual delivery, on the understanding that the foal shall be delivered to Buyer no later than one week after

the Award. Therefore, as of the moment of delivery, the risks of the foal, including all (financial) responsibilities and liabilities, transfer to the Buyer.

- b. if there is a Purchase Agreement regarding a foal that is younger than 5 months at the time of sale, then the foal shall not be delivered until the foal has reached the minimum age of 5 months and the risk of loss and/or of damage to and/or caused by the auctioned/purchased foal shall remain with Seller up to an age of 5 months and with Buyer after an age of 5 months. Without prejudice to the foregoing, Seller shall be obliged to leave a sold foal with its mother until the age of 5 months without any compensation being due to Buyer and Seller shall be obliged to have delivered the foal to Buyer before the foal is 5.5 months old.
- b. Unless otherwise agreed, the risk shall transfer to Buyer at the time specified in Article 56 regardless of at what time the actual delivery of the foal to Buyer takes place. If there is a Purchase Agreement between a Consumer Buyer and a Seller who is not a consumer, the risk does not transfer until delivery.
- c. Without prejudice to the other provisions in these General Auction Conditions, Buyer and Seller shall indemnify KWPN against all claims by third parties relating to the provisions of article 57a.
