for another reason, which member must be registered in the trade register as a partner of the company. 4. The director-member designated by the legal entity or the partner-member designated by the company must be a member of the board of the legal entity or a partner of the company during the period he or she is a director-member or a partner-member. Within one week after the director-member or partner-member ceases to hold this position with the legal entity or company, the legal entity or the company shall notify the board thereof in writing, at the same time naming a new director-member or partner-member who shall meet the requirements of paragraphs 2 and 3. A director-member or a partner-member may also already be a member of the KWPN for another reason.

As long as the notification of a change referred to in paragraph 5 has not taken place, the person who was last registered with the KWPN as a director-member or as a partner-member shall be considered to be the director of the legal entity or the partner of a company. If the member has not fully fulfilled any financial obligation one month after the due date, he shall be excluded from participating in all activities of the KWPN and from all the services provided by the KWPN from that date without the right of appeal until the member has fully fulfilled his financial obligations. Until then, the member cannot exercise any KWPN rights, including but not limited to obtaining studbook registration documents, participating in activities and events and receiving the association's magazine, and remains obliged to fulfil all his membership obligations.

A member shall refrain from any form of sexual behaviour or sexual advances towards another member, whether verbal, non-verbal or physical, whether intentional or unintentional, which the other member who is subjected to it considers unwelcome or coercive. A member shall refrain from any form of verbal abuse, threat or discrimination towards another member.
9. A member shall promote the health and wellbeing of horses and refrain from any infringement thereof. A member shall refrain from using or administering illegal substances and must allow checks for illegal substances and cooperate fully with those checks, all this in the manner laid down in the Regulations regarding Illegal Substances.

8. The KWPN does not register the owner or ownership of a horse as referred to in the Dutch Civil Code. The registered party or another member or a third party cannot rely on the registration of a horse or registration as the 'registered party' as a right or as evidence of ownership of such horse as referred to in the Dutch Civil Code. Registration of a horse and of the registered party is solely intended for the purpose of KWPN's internal administration in connection with the rights and obligations attached to the registration of the horse. No rights can be derived from this in respect of the KWPN.
9. When the KWPN issues a horse passport at the request of a registered party, the KWPN will indicate the breeder or the registered party as the 'owner as referred to in the horse passport' on the horse's passport, without stating whether the breeder or registered party concerned is a (joint) owner as referred to in the Dutch Civil Code with regard to the registered horse or not. The indication of 'owner' in the horse's passport is made on the basis of national regulations of the Product Boards for Livestock, Meat and Eggs and is not the responsibility of the KWPN.

10. If the registration of a horse or of horse data is disputed in writing by someone other than the registered party, the management board may, at the request of the applicant, record this in the studbook records in respect of the registered horse. Before recording this, the management board may require the person(s) involved to submit a written statement of the facts and circumstances justifying the request, accompanied by documentary evidence where possible. The record only has an internal effect, from which no rights can be derived by the registered party, the applicant, another member or a third party. No objection may be made to the record by the Governing Board or any other body.
11. If a record is made, the management board shall notify the registered party in writing and request a written response. If the registered party does not respond in writing after repeated requests, the management board will be authorised to amend the horse's data as the management board deems appropriate.
12. If the registered party refutes the challenge referred to in paragraph 10 in writing, stating reasons, the management board shall inform the applicant referred to in paragraph 10 thereof. If the applicant persists in his request to make a record of the dispute regarding the registration of the horse and/or the horse's data, the director shall ask the registered party and the applicant to reach an agreement regarding the manner in which the horse and/or the horse's data and personal data concerned are to be registered within three weeks and to notify the management board thereof in a joint statement in writing. The joint statement must be unambiguous and without reservation.
13. If the management board does not receive the joint written statement from the registered party and the applicant referred to in the previous paragraph within the set time period, the management board shall give the applicant a period of three weeks to submit the dispute to the KWPN arbitration committee or, alternatively, to the preliminary relief judge of the competent court. Until the KWPN arbitration committee or the preliminary relief judge has ruled, the KWPN will maintain the original registration. The applicant shall send a copy of the request submitted to the KWPN arbitration committee or a copy of the writ of summons served on the registered party to the management board within the stipulated period. If the copy of the request or of the writ of summons is not received in good time, the management board will be free to maintain the registration unchanged or to amend the registration as the management board deems appropriate.
14. If the decision of the KWPN arbitration committee or the preliminary relief judge gives reason to do so, the management board will amend the registration in the manner indicated in the decision. If, following the decision of the preliminary relief judge, a different decision is rendered on appeal or in proceedings on the merits, the management board will always comply with the decision rendered in the last instance or the highest court with regard to the registration.
